Dear Friend,

In this special bonus report, you will discover how to add a little twist to an existing power strategy (probably one of the most powerful marketing strategies of them all,) and increase your profits by 40, 50, 100% or more!

Each time I have used this twist, it has resulted in at least 50% more profits, and up to 340%. The truth is, there's no cap on the additional profits you can pull in by using this simple tweak.

If I were to guess, I'd say that only 50 out of every 1,000 marketers are using this simple twist. And out of those, only 10 or 12 of them are using it correctly.

That's unfortunate. But, it should come as good news to you. By using this twist correctly, you will be able to outpull the response rate of all your competitors!

Please pay close attention to every little detail I outline about this strategy. Most people will not. I hope you'll be one of the few who makes a killing this year (and every year) from the information in this report.

I'll try to keep this report as short as possible. So, please take the time to really understand and absorb what I'm about to share here. And then put it to work right away! Your bank balance will thank you. :-)

Let's get to it...

Are You Tired Of Hearing About It Yet?

Are you tired of people babbling about it? I sure am. I'm sick of it.

What the heck am I talking about?

Joint Ventures, of course!

Everywhere you turn, every marketer and his/her uncle is talking about how great joint ventures are.

What kills me is, many of them are talking about it as if it just came into existence a month ago!

What's even worse is, most people who try to strike joint venture deals find out that it's not as easy as everyone makes it out to be.

But... the fact remains that joint ventures, if done correctly, is by far the best marketing strategy in existence.

As tired as you may be of hearing about it, joint ventures is a guaranteed way to bring in a consistent flood of new prospects and customers who will instantly put their trust in you and buy from you (repeatedly.) It's an easy way to get your name out there and put you on the map almost instantly (i.e. make you famous.)

And, of course, you can make a lot of money from joint ventures without having to spend a penny on advertising. No matter how you slice, you just can't beat that. Just know that it works, and many of the successful major corporations you hear about today were built through joint ventures.

I'm not going to tell you *how* to strike up joint ventures. That's not what this report is about. Besides, you've probably heard more about it than you'd like to. And, there are many products available on the subject.

If you'd still like to learn more about it, and if you would like to get *my* take on the subject, you can use the link below to get my report, which reveals everything I've learned about striking joint ventures with top experts:

Unlimited Profits: Bonus Report #2 - Multiply Your Profits With A Simple Twist

THIS report is about a simple, and almost unplanned, *twist* that I put on regular joint ventures, and how it doubled my profits immediately!

Let's use an actual joint venture that I did, as an example, to explain the 'twist'...

Initially, I sent a regular email to one of my jv partners to see if he'd accept my offer. Let's call him "Jack." Here's the sample letter...

Hey Jack,

How are you?

Just wanted to let you know that I'm about to release a new high-ticket package, and was wondering if you could help me with the launch. I would love to have you on board. The package will sell for \$297 and you get 50% of that from each sale. :-)

I've tested the sales page on a small group and it's converting very well. I'm also getting some killer testimonials already, which I'll be adding to the sales letter, so it's only going to get better!

Here's the link for the sales page (draft)

<http://my-salespage-link-went-here>.

And here's a complimentary copy of the package for you to review and use:

<http://my-download-link-went-here>.

Would love to get your thoughts on the package, and if you're able to, I'd appreciate a testimonial that I can add to the sales page.

I have all the sample ads, emailers, graphics, etc ready to go. Just need a confirmation from you.

I'd love to have you join us for the launch. Please let me know if you'd be interested. If not, no problem. Let me know either way if possible?

Thanks, Jack! Talk to you soon,
Bryan

It's a pretty basic letter that hits on most of the important components of striking a joint venture.

Let me show you how I was able to immediately increase my pool of jv partners (and profits!) by a factor of 2, 3, 4 or more!

Unlimited Profits: Bonus Report #2 - Multiply Your Profits With A Simple Twist

After I got a positive reply from Jack, I started wondering about how I could give this launch even more exposure, in addition to the usual joint ventures that I was planning on doing with my existing partners and friends.

The answer came to me within a day.

Here's the next email that I sent to Jack...

Thanks, Jack!

Really glad to have you on board. I'll send you all the details and promo materials shortly.

Here's something else that I just thought of...

If you'd like to tell your other friends/partners about this launch, I'll put all of them under you, as a 2nd tier, and you'll get an additional 10% on the second-tier, from all the sales that they bring in.

Let me know if you'd be interested in doing this. I think it's a win-win for everyone involved. (Please keep the 2nd-tier part between us though. I am only going to do this for my closest friends and partners.) Everyone else will get the standard 50% commission.

Let me know what you think, man.

Thanks, again! And really appreciate all your help.

Talk soon,
Bryan

Okay...

Let me go over this simple twist to show you just how mind-blowingly powerful it is!

With that short and simple email above, I easily managed to multiply the number of jv partners by 2... 3... 4 times or more! Instead of having 4 jv partners ready to help me launch my product, I was able to get 11 of them, within a matter of days!

Here's the real beauty of this twist, and why it works so powerfully and easily...

Unlimited Profits: Bonus Report #2 - Multiply Your Profits With A Simple Twist

If you've ever tried to strike a joint venture with a person you have never done business with before, and have no existing relationship with whatsoever, your chances of getting a "yes" from him/her is not very good. It's 50/50 at best. It could go either way.

But...by asking *my jv partner* to approach his partners personally, I have dramatically increased my chances of getting all these new partners on board, simply because my jv partner has *already* built positive relationships with these individuals!

If I had decided to contact all these *new jv* partners on my own, there is **no way** I would have been able to get as many positive responses as my partner could get. (And, that's assuming that I knew who these people were, and had the correct email/phone numbers to contact them all.)

This strategy works because of the existing relationships that my partners have with *their* partners.

Also, I make it worth everyone's while. Notice that I didn't cut the 10% commission out of my partner's downline. They all still got 50%. I took the additional 10% out of **my** share! And I was happy to do it because my partner was helping in increasing my profits by at least 200%!

I hope you really stop and think about this strategy. I hope you really let it sink in and realize the explosive power that's just waiting to be tapped into.

The response I got from my launch was unlike anything else I had ever done! I really was in awe of what I had just accomplished.

Here's what's really funny...

I hadn't thought about, or planned on incorporating, this strategy into my launch plan till the very last minute. The idea came to me *after* I sent out my initial emails to my partners.

It all happened so fast that I had no tracking scripts in place to track all the 2nd tier profits that my new jv partners would bring in.

I ended up tracking everything manually! And, you know what? All the extra work was well worth it! :-)

Naturally, my advice to you is to plan ahead, unlike what I did. Set up your own two-tier tracking, or pay someone for the service, ahead of time.

Unlimited Profits: Bonus Report #2 - Multiply Your Profits With A Simple Twist

That's it! That's my awesomely, powerful twist that can easily double, triple or quadruple your profits, almost immediately!

It's nothing fancy or complicated. In fact, it's very easy to do. It's a whole lot easier and quicker than having to strike up brand new joint ventures on your own, that's for sure!

I really don't know of any other strategy that can increase your profits, **as well as the power of all your future launches**, this easily and dramatically!

Think of it this way... if you have just one jv partner right now, you can easily double or triple that number just by contacting your existing partner the right way.

Put it to use immediately, and watch your profits instantly double, triple, quadruple, or more!

To your *multiplied* profits!

Sincerely,

Bryan Kumar
